## **Rack Mount**

## Wall Mount

# Expansion racks as slaves for additional analogue a/b and digital extensions.

Up to 240 users: all public network access is via the Master.

- Assign IP Registration names and PINs on the Master IP Phone Registration page for all Slave extension users.
- Enter the IP address of the Master at each Slave's IP addresses page.
- Register Slave extensions with the Master system, by programming the Slave's Extension registration page.

## **User Portal**

Install the Communicator synchronisation program on the User PC for loading Contacts to the system and synchronisation with Gmail or Outlook.

- Download from: http://www.mdsgateways.com/manuals/UN/IP240/english.html and follow the Wizard.
- Associate the Communicator with an Extension on the PBX by entering the IP/URL address of the PBX, User Name and PIN.
- Use Import/Export page to download User Gmail or Outlook contacts to the PBX.
- · Synchronise Contacts.
- Use the Communicator program to launch the User Portal.
